FULL-STACK PHP DEVELOPER

Galantryas Mukti Pratama

galantryas.2014@gmail.com | github.com/Galantryas | linkedin.com/in/galantryas-mukti-pratama

Six years building business systems in Laravel and Vue: cooperatives, point of sale, HRIS, PPOB, regional data, and internal reporting. Comfortable across the stack, from schema and API design to the screens operators use every day.

EXPERIENCE

Software Engineer
Feb 2024 - present

Firstasia Consultants

Backend systems for client projects. PHP and Laravel on the server, working from existing schemas and legacy modules where required.

Full Stack Web & Mobile Developer
Mar 2021 - Jan 2024

CV Cipta Solutindo Tech

Built cooperative management, point of sale, trading, land valuation, HRIS, PPOB and Baznas assistance systems. Laravel and Vue, with Flutter for the mobile side of two products.
